Return of "The Tenderfoot."

As bright as ever, and sparkling with the catchy songs, attractive dances and artistic ensembles that made it notable when first presented here, "The Tenderfoot" came back to Indianapolis last night for a single performance (this big town continues to be a one-nighter) and pleased an audience that filled English's from the first row of orchestra chairs to the topmost seats in the gallery. It was the largest audience that has gathered at English's in several weeks and was a thoroughly appreclative crowd. "The Tenderfoot" is entitled to the suc-

• quite the best work this gifted composer of light music has ever done. The piece was reviewed in detail in these columns so recently, its first engagement being played here just before the holidays, that there is no occasion at present for going over the same ground. The production seen last night was the same elaborate one presented here before, and the three merry acts were given in the same breezy, enjoyable style. There have been only two changes in the cast since the opera's first engagement in Indianapolis. Hortense Mazurette appeared last night in the prima donna role of Marion Worthington, the Texas heiress-the part formerly played by Grace Cameron. Miss Cameron left the company just before it filled its Boston engagement and Margaret Sayre, who had been her understudy, took up the leading feminine role. Miss Sayre did well in the part, it is understood, but the management decided to give Miss Mazurette a chance to show what she could do n the important role, so that the company would have two prima donnas in its ranks. The latter young woman has had but little stage experience, and, taking this into consideration, it must be said that her performance of last evening was most praisea trifle uneasy in acting the dramatic scenes, but vocally her work was an im-

This balloon feature is not the only novelty in "A Ragged Hero." The scene in the play that wins the greatest outburst of applause is the one where "Willie," the tramp, leaps into the barnyard swing, and, swaying it to the height of the second-story window of the farmhouse, saves a little girl from being burned to death, the house having been set on fire by tion of the electrical effects were owned bad for words. The new romantic opera, "Red Feathfrom \$40,000 to \$60,000. As a protection to er," with music by Reginald De Koven, book by Charles Klein and lyrics by C. Emmerson Cook, will have its first Indianapolis hearing this evening when it will be presented by a large company, under the management of Florenz Zeigfeld, with Grace Van Studdiford, an Indiana singer, as prima donna. The engagement is for to-night, to-morrow night and a matinee to-morrow afternoon. The opera is said to be the best work Reginald De Koven has done since he gave to the musical world "Robin Hood" and "The Fencing Master." The story provided by Mr. Klein is romantic and is said to be handled in a thoroughly interesting way. The Countess Draga, impersonated by Miss Van Studdi-ford, is in reality "The Red Feather," a notorious bandit in the imaginary kingdom countess and she loves him, but will not confess it. The crown prince of the land is also in love with the countess and the rivalry between the young men furnishes most of the comedy.

In the leading role Miss Van Studdiford work of her career. She is said to be equally good as the titled lady of the court and the happy-go-lucky bandit who robs her own sweetheart just for fun. Other well known singers in the company are Elsie De Vere, Olive C. Moore, Lillian Sefton, Margaret Hubbard Ayre, James E. Sullivan, Floye Relledge, George L. Tallman, Staniey Hawkins, Louis Casavant, Stuart Hyatt, Fred J. Titus and Charles Fitz. The chorus numbers fifty young women and men and all have good voices. The scenes are said to be marvels of beauty and the costumes the most expensive seen on the stage this season. The overture to-night will begin promptly at 8 o'clock.

A Literary Episode.

What Elizabeth Cherry Waltz wittily designated as "the snoop book"-the questionable novel to be "snooped" under the couch cushions on the approach of a manis, it appears, not to be indorsed by the small boy of the average literary household. In the presence of small Walter, ten or thereabouts, the other day, Walter's mother and young aunt were discussing, discreetly enough, as they supposed, one of the recent novels, more or less "snoopy" in character. The young aunt had not read Mrs. George Catterson has gone to Mun- the novel, and the mother emphatically pronounced upon it as of trash trashy, and, moreover, a "bad book," although written literary distinction. At the close of the young aunt's visit she picked up the discussed novel and said:

"Well, Isabel, if you don't care I'll just take this book home and run through it. There are so many, many off-color novels these days that the off-color quality really has become too monotonous to be damag-
